LETTER FROM PRESIDENT & CEO

Dear Friend,

We invite you to join us for the Heart of the Fairway Golf Scramble, benefiting the Heart & Vascular Institute of Eastern Kentucky at Pikeville Medical Center. This exciting fundraising event will take place on June 5th, 2026 at Green Meadows Country Club, Pikeville KY, bringing together community leaders, healthcare professionals and supporters to drive awareness and funding for life-changing heart and vascular care in our region.

Your sponsorship or participation will directly impact the lives of patients who rely on the Heart & Vascular Institute for advanced cardiovascular treatment and compassionate care. With heart disease being a leading health concern in our community, your contribution will help provide cutting-edge technology, patient assistance programs and specialized care to those who need it most.

We are offering three sponsorship levels, each providing unique benefits and recognition opportunities.

Enclosed, you'll find a sponsorship booklet with in-depth information about each level as well as registration forms. We would be honored to have your organization join us in this mission to enhance heart health in Appalachia.

To confirm your sponsorship or learn more, please contact Lisa Kendrick at lisa.kendrick@pikevillehospital.org or 606-213-5723.

Thank you for considering this opportunity to make a lasting impact. Together, we can ensure that our community has access to world-class heart care.

With gratitude,
Donovan Blackburn

ABOUT THE HEART & VASCULAR INSTITUTE OF EASTERN KENTUCKY AT PIKEVILLE MEDICAL CENTER

The Heart and Vascular Institute of Eastern Kentucky has assembled a team of cardiac specialists who bring a broad range of expertise to the program. That expertise coupled with cutting-edge technology and the best equipment and operating rooms available, results in comprehensive heart care that is second to none.

PMC's Heart and Vascular Institute offers advanced procedures that rival its urban counterparts, serving as a testament to its belief that “**Where** you live should not determine **if** you live.” These services are keeping families close to home, providing the necessary care they deserve.

From general cardiology, interventional cardiology, electrophysiology, cardiothoracic surgery, vascular surgery, structural heart, cardiac diagnostics and a cardiac rehabilitation program, patients truly no longer have to travel to larger cities to receive the care they need.

The Heart and Vascular Institute of Eastern Kentucky has 36 providers and a host of other nurses, techs and support personnel and sees patients out of five facilities throughout eastern Kentucky, southern West Virginia and southwest Virginia.
